

HE SHARES YOUR STRONG WORK ETHIC.

Will you be around to see if
his kids do too?

REGULAR LUNG CANCER SCREENINGS ARE IMPORTANT FOR YOU. AND THE ONES YOU LOVE.

If you're considering whether to get a lung cancer screening, consider who else your decision might affect. Lung cancer has the highest death rate in the U.S. compared to any other cancer. If you smoke, were a smoker, or have been exposed to radon gas, asbestos, arsenic, chromium or nickel, ask your provider about a yearly low-dose CT scan. Early detection can lead to longer, happier lives. For everyone.
