

May 22, 2019

Dear Flex Coordinators,

For the past few years, the Medicare Rural Hospital Flexibility Program (Flex) has required participation in the Medicare Beneficiary Quality Improvement Project (MBQIP) for Critical Access Hospitals (CAHs). As of May 2019, 1,339 CAHs have a signed Memorandum of Understanding (MOU), demonstrating commitment to MBQIP with 99% of them reporting on at least one domain. In addition, of the 1,345 CAHs, 93% reported quality measures in at least three domains in the past year, which is a 5% increase from FY18 reporting rates! Great job on all your hard work!

After seeing the progress made by all of our Flex partners and CAHs, FORHP has decided to continue a phased approach to achieving 100% reporting in all four domains.

Depending on the availability of appropriated funds and a decision that continued funding is in the best interest of the federal government, for the Federal Fiscal Year (FFY) 2020 (September 1, 2020 – August 31, 2021), CAHs must meet **two** criteria to be eligible for FFY 2020 Flex-funded activities:

- (1) A signed MOU to submit and share MBQIP data
- (2) Reported data on **at least one MBQIP Core measure, for at least two quarters, in at least three of the four quality domains, within a certain reporting period.**
 - Note: Measures that are only reported on an annual basis (Antibiotic Stewardship, HCP/IMM-3, and OP-22) count towards the requirement of reporting for at least two quarters.

CAHs are highly encouraged to continue reporting as many measures as possible, regardless of what the minimum requirements are for the year.

We would appreciate feedback as to how we can make this a smooth process. Please contact your project officer and let us know of concerns or recommendations.

Thank you,

Sarah Young, Flex Program Coordinator, Hospital-State Division, FORHP

Kristi Martinsen, Division Director, Hospital-State Division, FORHP

Criteria for Eligibility in Flex Funds for CAHs, FFY 2020 (September 1, 2020 – August 31, 2021)

Future Flex funding will depend on the availability of appropriated funds and a decision that continued funding is in the best interest of the federal government. The criteria for eligibility for FFY 2020 participation in Flex, based on the required participation in MBQIP activities, are outlined below. Please note that it is highly encouraged that CAHs consistently report data on as many measures as possible in all four domains. Also, due to variations in data availability and timing, the reporting period for EDTC is different than the other measures.

The minimum requirements to participate in Flex-funded activities in FFY 2020 (September 1, 2020 - August 31, 2021) include:

- (1) A CAH must have a signed MBQIP Memorandum of Understanding
- (2) A CAH must have reported data on at least one measure for at least **any two quarters** within the reporting period listed below in at least **three of the four [MBQIP Core Quality Domains](#)**. Data periods that will be used to determine eligibility are listed below:

- **Patient Safety/Inpatient**

- IMM-2: 3Q2018 – 4Q2018
 - Note: IMM-2 is being removed by the Centers for Medicare & Medicaid Services (CMS) following submission of Quarter 4 2018 data (due May 15 2019)
- ED-1: 3Q2018 – 4Q2018
 - Note: ED-1 is being removed by the Centers for Medicare & Medicaid Services (CMS) following submission of Quarter 4 2018 data (due May 15, 2019)
- ED-2: 3Q2018 – 2Q2019
- Antibiotic Stewardship: Submit calendar year 2018 NHSN Patient Safety Component Annual Facility Survey. Annual submission meets the requirement of two quarters.
- HCP/OP-27: Aggregate based on 4Q2018 – 1Q2019 (submitted annually, due May 15, 2019). Annual submission meets the requirement of two quarters.

- **Patient Engagement (HCAHPS): 3Q2018 - 2Q2019**

- **Care Transitions (EDTC): 1Q2019 – 4Q2019**

- **Outpatient**

- OP-2, OP-3, OP-18: 3Q2018 – 2Q2019
- OP-5: 3Q2018 – 1Q2019
 - Note: OP-5 is being removed by CMS following submission of Quarter 1 2019 data (August 1, 2019)
- OP-22: Calendar year 2018 (submitted annually, due May 15, 2019). Annual submission meets the requirement of two quarters.

Frequently Asked Questions

- **Inaccurate information:** CAHs in my state indicate they reported data within the reporting periods, but were deemed ineligible for Flex funds. How do I fix this situation?
 - If a CAH reported data within the reporting periods listed above for at least two of the four domains, then please submit documentation to your designated FORHP project officer that demonstrates your CAH submitted MBQIP measures within the reporting period and FORHP will review the documents
 - Example of acceptable documentation:
 - QualityNet Case Status Summary Report
 - HCAHPS vendor survey submission
- **Non-reporting CAHs:** CAHs in my state do not want to submit data on any of the measures under the MBQIP Quality Domains or submit a waiver. What happens now?
 - If CAHs do not want to submit data on any MBQIP core measures, then they are not eligible to receive any Flex funds or participate in Flex-funded activities until they opt-in to MBQIP with a signed MOU and submit data on MBQIP measures. State Flex programs may provide technical assistance to assess needs and encourage MBQIP reporting and for information-sharing that does not add additional costs to the state Flex program (such as an email listserv, recorded webinar, or conference presentation).
- **Participating in MBQIP:** What if a CAH in my state opted out of MBQIP, but would like to opt-in to MBQIP again?
 - FORHP will need a new signed [Memorandum of Understanding](#) and the CAH must submit data on MBQIP core measures. Please send the MOU to your FORHP designated project officer.
- **Waivers:**
 - CAHs in my state requested a waiver last year, can they submit one again?
 - Yes, all CAHs can submit a waiver to be reviewed by FORHP as long as it adheres to the waiver requirements
 - FFY 2019 waivers for CAHs in my state were accepted, which eligibility requirement do they adhere to?
 - All CAHs, regardless of if they have had a waiver in the past, will be held to the most current MBQIP reporting requirements
- **Future reporting requirements:** Will the requirements for participation in MBQIP change for September 2020 and beyond?
 - Yes, FORHP will implement a phased approach when determining the minimum level of reporting requirements in MBQIP required for participation in Flex-funded activities. Every year, FORHP will increase the MBQIP requirements for CAHs with the goal of increased reporting and improved quality of care. More details concerning participation criteria will be forthcoming from FORHP. Please contact your designated FORHP project officer if you have any questions or concerns.
