

Mid-Level Leaders and the Transition to Value Video Series

This educational video series provides mid-level leaders with foundational knowledge and strategies for leading their team and influencing others as they navigate the shift to value-based payment and population health.

Each module includes an educational video, discussion questions, resources, and suggested activities to support learning.

Transforming Health Care from the Middle

1 Understand how mid-level leaders can help their department, organization, and themselves to transition from volume to value and population health.

Strategic & Systems Thinking

2 Explore what it means to be a strategic and systems thinker as a mid-level leader and how it can positively impact the organization.

Collaborative Leadership

3 Explore what collaborative leadership looks like and learn strategies for effectively leading with a collaborative approach.

Change Leadership

4 Explore the change process as well as the emotional side of change. Learn specific things you can do as a leader of change to help others.

Basics of Health Care Finance

5 Understand the basics of healthcare finance for mid-level leaders and how it connects to your work.

Talent Development

6 Learn ways to hire and promote employees and develop your team's skills and knowledge in meaningful ways.
