

YOU PROMISED SHE'D SEE THE EIFFEL TOWER.

Don't make her experience it on
a group tour with strangers.

Prostate cancer is the second-leading cause of cancer deaths in men in the U.S. behind lung cancer. It's recommended that men ask their healthcare providers about being screened for prostate cancer starting at age 50.

Learn more at <CUSTOM URL HERE>.

Schedule a preventative screening at <CUSTOM PHONE NUMBER HERE> or talk to your healthcare provider.
