

RURAL HOSPITAL TOOLKIT FOR TRANSITIONING TO VALUE-BASED SYSTEMS

www.ruralcenter.org/srht/rural-hospital-toolkit

The Rural Hospital Toolkit for Transitioning to Value-based Systems ([Transition Toolkit](#)) provides hospitals and network leaders with best practice tools that improve financial performance, operational efficiencies, and quality of care and reporting. Key strategies are recommended to help leaders position their organizations for value-based care and prepare for population health.

The Transition Toolkit:

- Connects consultant recommended best practices with tools from nationally recognized organizations
- Supports providers in implementing best practices
- Provides strategies for transitioning to value-based care of the future
- Provides examples of hospital success stories
- Shares outcomes and impact through [Hospital Spotlights](#)
- Links best practices to associated trainings
- Links leaders to the [Self-assessment for Transition Planning](#)
- Provides leaders with resources and [templates](#) to develop and execute effective strategic plans

TOOLKIT TOPICS

- Self-assessment For Transition Planning
- Strategic Planning
- Leadership
- Physician and Provider Engagement and Alignment
- Population Health Management
- Financial and Operational Strategies
- Revenue Cycle Management and Business Office Processes
- Quality Improvement
- Community Care Coordination and Chronic Care Management
