

# Safe Creative Space Credo (SC)<sup>2</sup>

Close your eyes, relax and breathe deeply. Listening to the sound of your breath, release the tension in your face, your brow, your shoulders, arms, hands, back, torso, legs, and feet.

Today we are creating a safe, open space for generating and innovating ideas.

In this space, we leave our preconceived opinions and judgements at the door and open our minds to possibility.

All ideas are welcome, respect is shown to all individuals regardless of origin, belief, practice, or nature.

We create a space of safety, acceptance, and freedom to express, talk, listen and feel.

We all bring unique perspectives and values to our creative efforts and vow to protect and hold in confidence anything discussed in this space without fear of repercussions or reciprocity within or outside this space.

Now open your minds and your eyes. Let's begin...
