Debra Laine

Program Specialist II

Rural Health Innovations' Purpose

Rural Health Innovations (RHI), LLC, is a subsidiary of the National Rural Health Resource Center (The Center), a non-profit organization. Together, RHI and The Center are the nation's leading technical assistance and knowledge centers in rural health. In partnership with The Center, RHI connects rural health organizations with innovations that enhance the health of rural communities.

NATIONAL
RURAL HEALTH
RESOURCE CENTER

Webinar Objectives

- Understand the role of strategic planning in setting the stage for effective change
- Identify how to take advantage of the dynamic and iterative strategic planning cycle to progressively move toward your vision
- Explore effective strategic plan approaches and methods

Webinar Agenda

1. Change
2. Strategic planning cycle is like a slinky
3. Effective planning suggestions

Change

- Project is creating change
- Stakeholders stay engaged
- Planning has a role in engaging stakeholders
- Change is uncomfortable

BSC Planning Methodology

Adapted from Kaplan & Norton, 2002

Mission, Values and Vision

Network Organization

Aiming for a Shared Vision

What is the Value of Strategy?

What is the Strategic Planning Cycle?

Stepping Towards the Vision

Network Purpose and Shared Vision

This section provides a *high-level* overview of the network's:

- History
- Members
- Mission
- Shared Vision
- Primary Grant Goals

Analyze the Environment

This section reviews:

- Characteristics of the Network
- Internal Environment
- External Environment
- Strengths and Levers
- Weaknesses and Blocks

Force Field Analysis: Implementing HIT

Forces

- Technological advances
- Workforce demands for technology
- Consumer demand
- Quality breakdowns
- High health care costs
- Congressional mandates

Obstacles

- Low awareness of HIT scope and complexity
- Physician and staff resistance
- HIE confusion
- Shortage of HIT technical expertise
- Initial and on-going costs
- Silo thinking

Tipping Point

Awareness of Surroundings

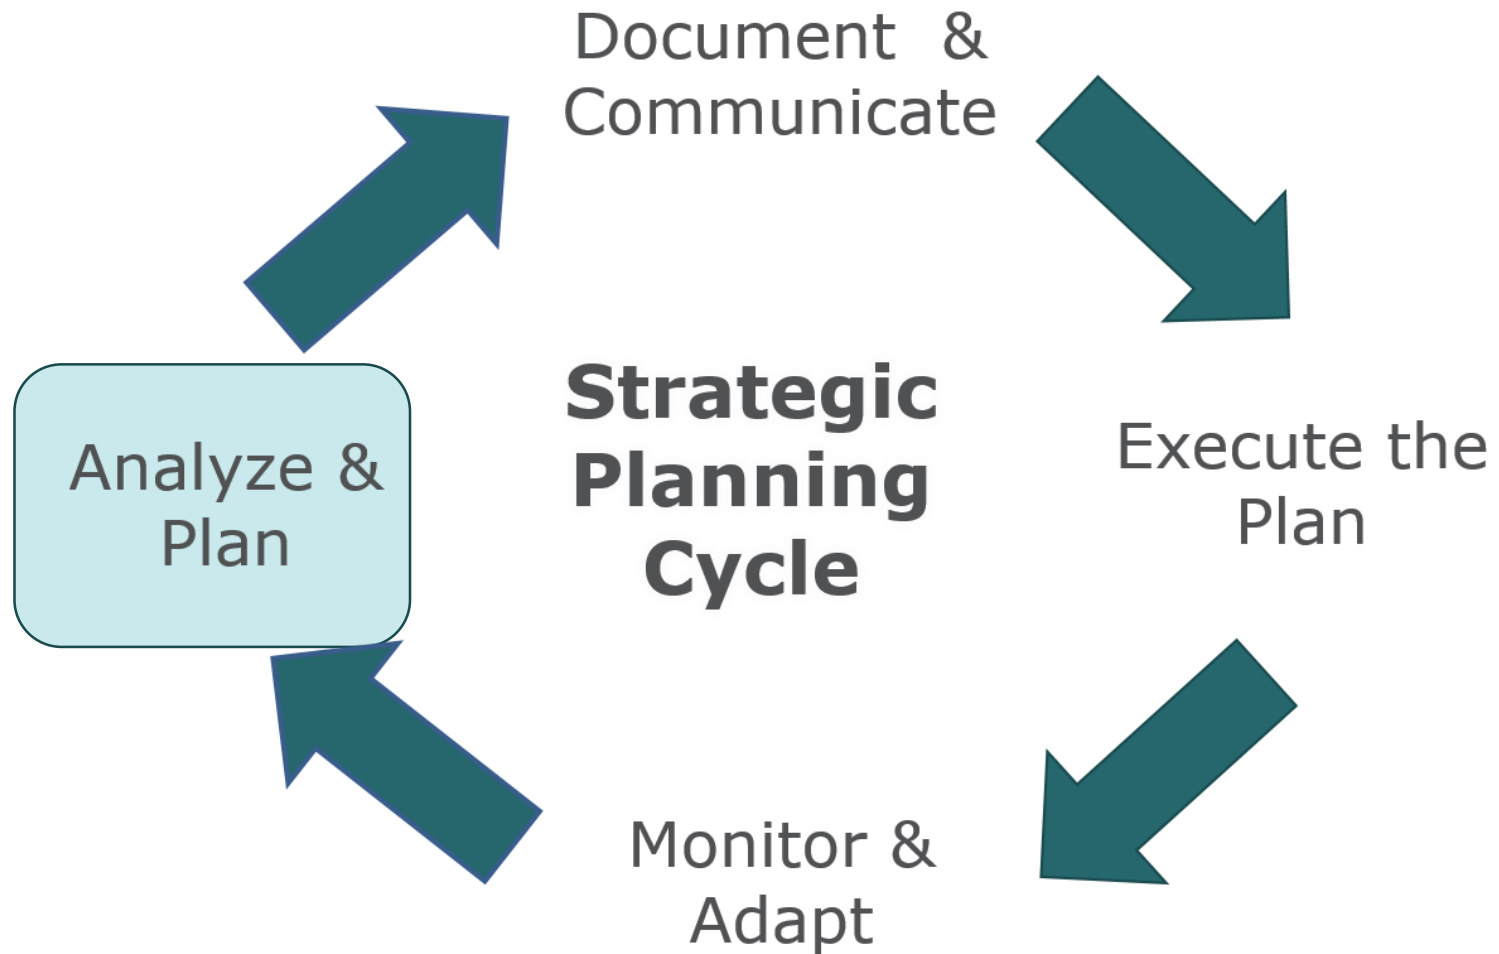

Strategic Objectives

- Identifies the 2-3 year strategic objectives
- Aligned with shared vision
- SMART

Strategies Define the Route and Provide a Path

Where are we at?

Document and Communicate

- Communicating the components of the strategic plan
- Plan for communication throughout the entire Strategic Planning Cycle
- Plan includes:
 - What
 - Audience
 - How
 - When
 - Who

Template: Communication Plan

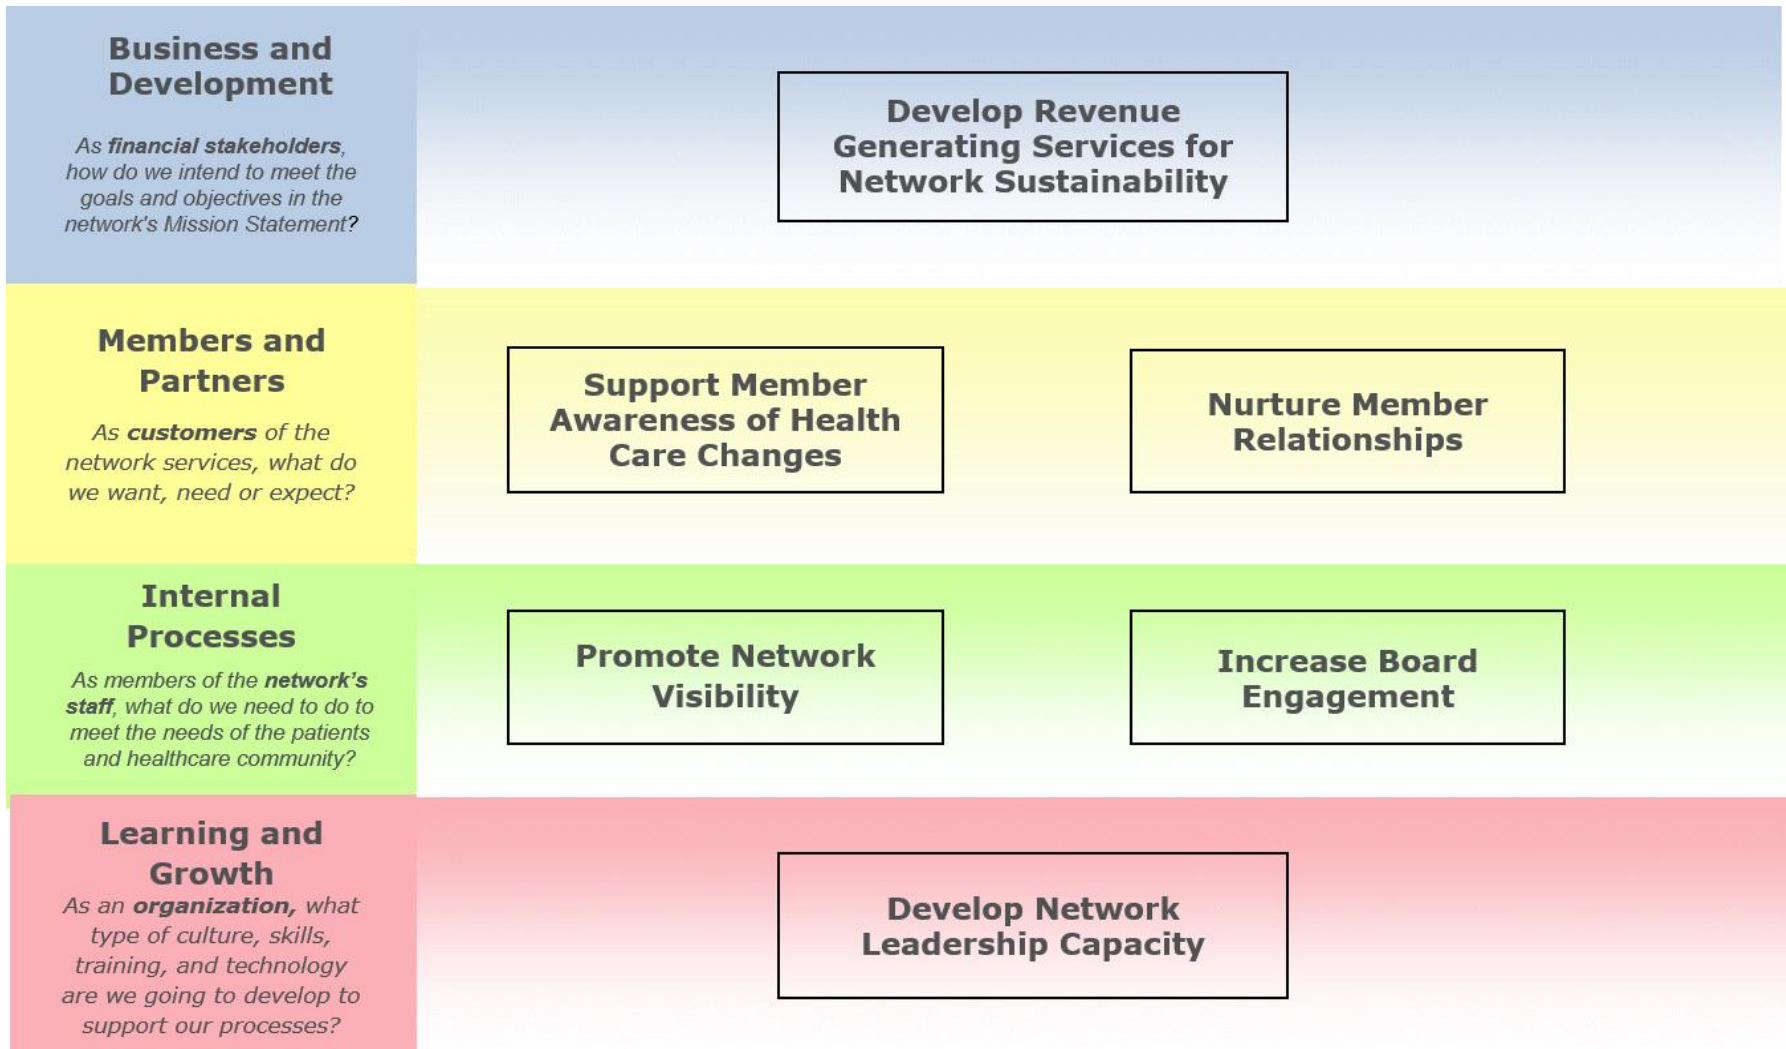

Communication Plan

This section details how the strategic objectives and initiatives are communicated throughout the network and partner organizations.

Consider using a visual to illustrate the communication plan. This section should be no more than two pages. Add rows as needed.

What is being Communicated?	Audience of Communication	Mode of Delivering Information	Frequency of Delivering Information	Person Responsible for Communication
<i>Mission / Vision</i>				
<i>Strategic Objectives</i>				

Strategy Map Communication

Dashboard

1. Pursuit of Medicaid Reimbursement for Tele-Dental Services

Plans for Monitoring and Review

- Scheduled meetings with State Department of Health Liaison (attended 4/10/15 strategic planning meeting) to discuss status of billing status
- Medicaid generated revenue will be tallied and tracked with dental software
- Assess the potential revenue if tele-dental services reimbursed by Medicaid
- Work with billing team to draft dental billing policy Number of Medicaid billing codes established
- Assess potential revenue if tele-dental services are not reimbursed

2. Complete Expansion of Service into Dental Office and Mobil Clinic

Plans for Monitoring and Review

- Weekly meetings held with telehealth staff, all telehealth activities, including tele-dentistry, are discussed
- Tele-dentistry services successfully provided
- Number of tele-dental services documented in dental software (daily) and reports reviewed

3. Recruitment of Part or Full-Time Dentist to Expand Capacity of Treatment

Plans for Monitoring and Review

- Human Resources (HR) staff monitors applicant database for submissions
- If recruitment is unsuccessful, HR staff will reassess recruitment efforts

Where are we at?

Operationalizing with Key Initiatives

- Shows the alignment
 - Strategic Objectives
 - Outcomes
 - Key Initiatives
- Take the steps
- Use the chosen framework to illustrate

Executing the Plan

Operations Move the Dial

Goal #2: The network, within three years will develop a sustainable, community-based job-driven program for health professionals in North Central Iowa.		
Strategic Objective	Output/Outcome Measures (Top 2)	Key Initiatives
A. The Network will have completed a strategic plan including expansion of program.	1. Complete Network Strategic Plan utilizing the Community Needs Assessment.	<ul style="list-style-type: none"> • Gather background materials for planning meeting. • Hold a strategic planning retreat. • Communicate planning meeting outcomes to partners/community. • Sync evaluation plan with strategic plan.
	2. By March 1st 2016 the final Program Evaluation Plan will be completed and submitted.	
B. The Network will have a complete sustainability and recruitment plan in place.	3. Retention and job placement measured at 3, 5 & 10 years.	<ul style="list-style-type: none"> • Thorough members needs assessment. • Determine appropriate data to collect. • Determine value propositions. • Create an ongoing monitoring and adjusting process.
	4. Conduct a deep dive and review program evaluation plan to create sustainability plan.	
	5. Conduct a deep dive and review program evaluation plan to create sustainability plan.	
	6. One on One student-instructor meetings to understand student and program needs.	

Now where are we at?

Monitoring and Adapting

- How progress of the strategic objectives will be:
 - Monitored
 - Adapted
- Monitor Quarterly
- Adjust Annually

Evaluation Keeps the Plan Going

GOAL 1: Improved health outcomes for a specific population						
Program Objective	What				When	Who
	Measure Description of an Output or Outcome	Target	Definition of Measure	Method of Collecting Data	Frequency of data collection	Who is responsible for gathering the data
C) Create a Coordinated Care Process for 1 chronic disease population	Output: A-1) % of people receiving coordinated care within chronic disease population	15%	Out of the total disease population % of those receiving care coordination service within the month	Network members report	Monthly	Project Manager
	Outcome: A-1) % health measure above county benchmark for chronic disease	5% higher than benchmark	Health measure at end of program year compared to most recently published annual County benchmark	Network members report	Annually	Project Manager

Fitting the Plans Together

TIP: Facilitation Skills are Needed

We are Better Together

TIP: Know your Audience

TIP: Think Like a Business

TIP: Get on a Schedule to Monitor and Adapt

36

Operationalize with Work Plan (Key colored numbers inserted to chart)

Inputs	Activities				Outcomes		
	Phase 1: Discovery and needs assessment	Phase 2: Develop products	Phase 3: Implementation and Testing/Evaluation	Phase 4: Product improvement and refinement, information dissemination	Short	Medium	Long
<ul style="list-style-type: none">• Network Board• Staff time – medical center staff, ABC for Rural Health's staff, MCP staff• Healthcare Leadership Council• Hospital leadership• HRSA Rural Network Development grant funding• Healthcare Consumers• Evaluators	<ul style="list-style-type: none">- Assemble collaborators and gather input on Network structure 1- Conduct interviews and observations with staff to assess existing benefits counseling practices 2, 3- Gather staff perceptions of customer services of benefits counseling 3- Gather customer perceptions of customer services of benefits counseling 3- Survey staff to assess existing benefits counseling practices and knowledge/awareness 3- Identify privacy requirements for sharing data 2- Conduct uncompensated care audit 2- Identify security, proprietary, and technical issues for integrating MCP software info existing admin data systems 2- Collect baseline information and data regarding existing CCPPC network. 1	<ul style="list-style-type: none">- Develop new SafeWeb Network structure (schedule, attendees) 1- Develop training method and content with stakeholder input (and based on results of staff survey) 3- Develop algorithms and design of MCP tool (ongoing) 3- Develop recommendations for workflow changes 2- Introduce case meetings 3- Introduce client services meetings 3- Finalize video conferencing plan 1	<ul style="list-style-type: none">- Conduct Assessment of SafeWeb Network Collaborative Capacity 1- Present trainings and educational material 3- Integrate and deploy MCP software 2, 3- Interviews and observations with staff to assess practices and workflow changes 3- Survey staff to assess practices and knowledge/awareness changes 3- Gather staff and patient perceptions of customer services related to benefits counseling 3- Assess SafeWeb Network implementation and success 1, 2, 3- Collect and analyze patient data on coverage access across span of project 2, 3- Review efficiency of benefits counseling practices 2, 3- Review uncompensated care audit 2, 3	<ul style="list-style-type: none">- Continuous improvement to product based on feedback from partners 1, 2, 3- Share project and process updates with stakeholders 1, 2, 3- Share project findings 1, 2, 3- Introduce MCP more widely 1, 2, 3- Software deployed and integrated 2, 3- Project evaluated 1, 2, 3	<ul style="list-style-type: none">- Improved communication between health centers 1- Greater integrated health benefits counseling network 1- Pts more accurately screened for coverage 2, 3- Greater staff capacity for health benefits counseling work 2, 3- Appropriate technology tool developed for medical centers' needs 2, 3- Software deployed and integrated 2, 3- Project evaluated 1, 2, 3	<ul style="list-style-type: none">- Medical centers generate less community care 2, 3- Improved access to care 2, 3- Reduced gaps in coverage 2, 3- Pts empowered to self-manage coverage transitions 2, 3	<ul style="list-style-type: none">- Economic health disparities reduced 2, 3- Fewer unmet health care needs in Polk County 2, 3- Improved community health 1, 2, 3- Replication of project in other sites 1, 3- Commercialized and more widely deployed 1, 2, 3

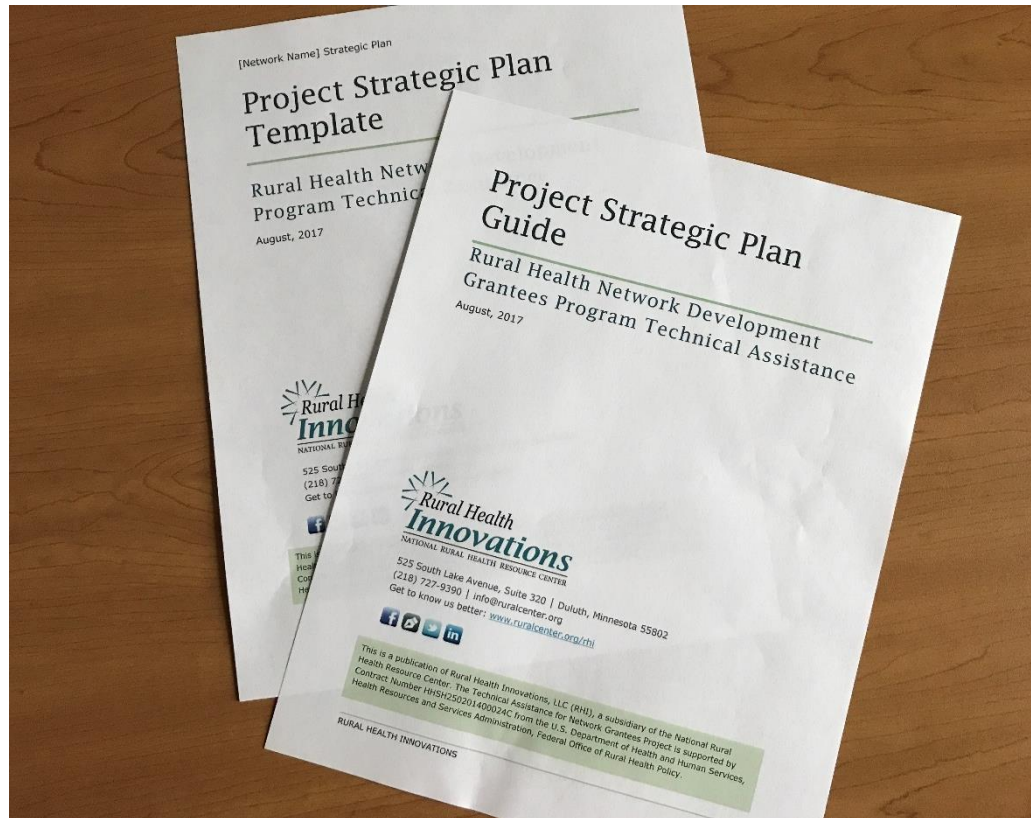

The Safetyweb Network is sustainable and active beyond the grant period

3. Patient access and retention of health care coverage is increased

Advanced health benefits counseling with technology supports increases effectiveness, efficiency, and customer service of current programming
