

TAKE YOUR HEALTH IN THE RIGHT DIRECTION

**Colon cancer is the nation's
SECOND DEADLIEST CANCER for men and women.**

Regular colonoscopies find cancer early when it's easiest to treat—and beat. Even better, providers remove pre-cancerous polyps to prevent cancer from developing, long before symptoms would occur.

If you're over the age of 50,
call **123.456.7890** to schedule
your colonoscopy or learn more
at **[HospitalAddress.com](https://www.hospitaladdress.com)**.

*The American Cancer Society recommends average-risk individuals start at age 45.
Ask your provider for his or her recommendation.*
