Dear Community Partner,

It is important that we talk about mental illness in ways that are supportive and open. Thank you for taking the first step toward starting the conversation regarding mental illness.

Make it OK is a national campaign which encourages individuals to talk more openly about mental illnesses. By breaking the silence, the Make It OK campaign hopes to de-stigmatize mental illnesses, so people will be more willing to seek out the care they need. By implementing Make It OK, you can foster an environment where everyone feels understood and supported.

The Make it OK materials are designed to be an easy to use communication tool for organizations to implement within their workplace. Use the accompanying toolkit for your business to help start the conversation that it’s OK to talk about mental illness, seek treatment and get the help necessary.

This toolkit is intended to be used by anyone who is passionate about the topic and wants to help increase awareness and reduce stigma. It is designed to help guide you through the Make it OK campaign, upcoming events and activities, and access the resources that you could choose to utilize to highlight Mental Health Awareness month.

Please note, this toolkit is intended to be used a general guide and may be edited as needed based on specific population needs. In addition, the toolkit is best utilized in an electronic format, due to many web-based resources or materials.

Sincerely,

### A QUIZ FOR EMPLOYERS

1. Are your employees aware of mental illnesses and their symptoms? Some ways to do this include employee newsletters, posting Make it OK posters on the bulletin boards, or including NAMI informational sheets in breakrooms.

2. Do you ensure that your health insurance includes a wide array of mental health benefits including depression screening, mental health crisis services and more?

3. Do you provide resources to help employees address life problems, for example, grief counseling, alcohol abuse programs, Employee Assistance Programs (EAPs) and referrals for mental health services?

4. Are your employees aware of what is available through your EAP or health insurance and of potential accommodations?

5. Do you have ADA (Americans with Disabilities Act) and FMLA (Family and Medical Leave Act) information prominently posted?

6. Have you ever surveyed your employees regarding their comfort in raising the issue of mental illness with their supervisor or HR department?

7. Have you educated your managers or supervisors about accommodations for people with mental illnesses?

8. Do you make efforts to help employees develop a healthy lifestyle, such as stress management, nutrition and smoking cessation programs?

WHAT EMPLOYERS CAN DO

1. Educate employees on mental illnesses in the workplace. There are three programs available through NAMI Minnesota: Make it Ok, the online Make it Ok training, and a one-hour Good Mental Health in the Workplace presentation.

2. Increase awareness about mental illnesses by including information in employee newsletters, posting Make it Ok posters on the bulletin boards, including NAMI informational sheets in breakrooms.

3. Sponsor the NAMIWalk, the largest public awareness raising event in the state, at the $250 level and have a sign with your company’s logo and/or name along the walk route which will be seen by over 4000 people.

   OR

   Form a NAMIWalk team (no fees) as a way to let your employees know that you care about their and their family’s mental health.

4. Ensure your insurance includes a wide array of mental health benefits including depression screening, mental health crisis services and more.

5. Make sure your employees know what is available through your EAP or health insurance and are aware of potential accommodations.

6. Have your employees take the Make it Ok pledge.

7. Survey the employees regarding their comfort in raising the issue of mental illness with their supervisor or HR department.

8. Educate your managers or supervisors about accommodations for people with mental illnesses.

9. Add mental health to sick leave policy.

10. Create a quiet room.

NAMI Minnesota (National Alliance on Mental Illness) is a non-profit organization dedicated to improving the lives of children and adults with mental illnesses and their families. NAMI Minnesota offers education, support and advocacy.
